D-SCALE

PRODUCT DESCRIPTION

A concentrated acid cleaner that dissolves mineral deposits and other difficult soils. Removes lime build-up and mineral deposits. Also cleans quarry tile and grout.

USES

- Coffee Urns
- Dishwash Machines
- Stainless Steel
- Sinks
- Tile & Grout

DIRECTIONS

DESCALING DISHWASH MACHINES: Fill scaled tank just below the overflow level with water. Start machine, making sure heater is turned on. Empty one gallon of D-SCALE into tank and let machine run until scale disappears. Apply D-SCALE full strength where spray does not reach. Drain tank. Refill with clear water and run for five minutes to rinse, then drain. Scrape scale off where scale build-up is heavy. Repeat descaling procedure when necessary to maintain a scale-free machine.

DESCALING COFFEE URNS: Fill water jacket of coffee urn with hot water. Add 1 oz. D-SCALE per gallon of water. Heat and let stand 15 minutes. Drain and rinse thoroughly. Wipe exterior of urn with full strength D-SCALE on sponge or cloth. Rinse and wipe dry.

DESCALING STEAM TABLES: Brush or spray D-SCALE full strength on all interior surfaces of steam table. Let stand 10 minutes and brush or scrape remaining deposits. Drain and rinse.

CLEANING QUARRY TILE AND GROUT: Apply solution of 1 oz. D-SCALE per gallon of hot water with mop or brush and agitate. Flush with hose. For badly stained areas, reapply solution and let stand until stain disappears. Rinse thoroughly.

PRODUCT SPECIFICATIONS

Color:	Clear	Vapor Density (AIR=1):	N/A
Odor:	Slight Odor	Vapor Pressure:	N/A
pH:	1.0-1.5	Solubility:	Complete in water
Viscosity:	Water Thin	Boiling Point:	212° F
Weight per Gallon	9 lbs.	Evaporation Rate (Water=1):	<1
